Finding Employers to Hire Clients

Last month, the THC Employment Services team decided to try something new - an in-house employment fair. The event was a huge success and a testament to the hard work and careful planning from multiple THC departments.

12 clients participated and 3 were selected and given start dates for employment. The employer, Project Re-Direct, is a home health care organization the supports individuals.

Another client, Phillip Black (pictured right), was approved for employment pending completion of his GED. All of the clients who attended were able to work on their cover letters and resumes, practice interviews, and found appropriate interview attire. Everyone benefited from the event making it a huge success and we look forward to organizing future events with more employers present.
