Resident Services Summer Success

Youth Gardens, Health Screenings and Utility Assistance

Resident Services are available to all families living in THC's Fort View Apartments (62 units), Webster Gardens Apartments (52 units) and Faircliff Plaza East (80 units). THC designs the Resident Service program based on a survey of family interests.

Survey results indicate that youth programs, health screenings, and utility assistance were the important needs for families living in THC's affordable housing.

Youth Garden Club: 16 children, 4 volunteers, and THC Staff, Nkemdirim Offor, participated in the spring **Garden Club** at Fort View Apartments. A \$500 grant from **Subaru Healthy Sprouts** allowed the youth to enhance the 200-square-foot plot in the nearby community garden by growing more food to distribute to residents through a three-part garden program. The program included gardening, educational lessons and fieldtrips which afforded the youth a chance to experience new aspects of the community, expand and establish their knowledge of gardening and practice leadership and teamwork skills.

Health Screenings: In partnership with the **Carl Vogel Health Center**, Resident Services has conducted more than 100 HIV/AIDS screenings since October 2012 between the three properties. Screenings are scheduled every three months at each location and available for free to any resident.

Energy Assistance: In April 2013, Resident Services held an Energy Assistance Blitz which assisted and referred eligible residents to receive energy assistance (credit) on their PEPCO bill. As a result, 30 families from Fort View and Webster Gardens received a total of \$6,979 in credit towards their energy bills.
